

AMENDMENTS TO THE CLAIMS:

1. (Original) An aqueous seed treatment insecticidal and/or nematicidal composition in the form of a suspension comprising
 - (A) at least one insecticide and/or nematicide in an amount of at least 3 weight %, based on the total weight of the composition, and
 - (B) at least two surface active compounds, wherein (i) at least one is an anionic phosphate type compound, and (ii) at least one is a non-ionic alkoxylated phenol.
2. (Currently Amended) The composition according to claim 1 wherein the molecular weight of the (B)(i) surface active compound is less than 2200, ~~preferably less than 1700, such as in the range 400 to 1500, more preferably in the range 600 to 1200.~~
3. (Currently Amended) The composition according to either claim 1 ~~or claim 2~~ wherein the molecular weight of the (B)(ii) surface active compound is less than 2200, ~~preferably less than 1700, such as in the range 400 to 1500, preferably in the range 600 to 1200.~~
4. (Currently Amended) The composition according to ~~any one of claims~~ claim 1 ~~to 3~~ wherein the composition is a suspension composition.
5. (Currently Amended) The composition according to ~~any one of claims~~ claim 1 ~~to 4~~ wherein (A) is abamectin.
6. (Currently Amended) A slurry composition comprising the composition defined in ~~any one of claims~~ claim 1 ~~to 5~~, a liquid carrier and optionally (i) one or more formulation adjuvants, (ii) one or more other pesticidal compositions, each comprising at least one further pesticide, or both (i) and (ii).
7. (Currently Amended) A method of protecting plant propagation material from attack by pests comprising by treating the material with a pesticidally effective amount of the composition claimed in claim ~~any one of claims 1 to 6.~~

8. (Currently Amended) A pest resistant plant propagation material comprising a plant propagation material treated with a pesticidally effective amount of the composition claimed in any one of claims claim 1 to 6 or obtained by the method claimed in claim 7.

9. Cancelled

10. Cancelled

11. (Currently Amended) The slurry composition according to ~~either claim 5 or~~ claim 6 wherein one or more pesticidal compositions (ii) has a pH of less than 7.

12. (New) A method of protecting plant propagation material from attack by pests comprising by treating the material with a pesticidally effective amount of the composition claimed in claim 5.

13. (New) A method of protecting plant propagation material from attack by pests comprising by treating the material with a pesticidally effective amount of the composition claimed in claim 1, wherein the molecular weight of B(i) is in the range 600 to 1200, the molecular weight of B(ii) is in the range 600 to 1200, and (A) comprises abamectin.

14. (New) An aqueous seed treatment insecticidal and/or nematicidal composition in the form of a suspension comprising an effective amount of the composition claimed in claim 1, wherein the molecular weight of B(i) is in the range 600 to 1200, the molecular weight of B(ii) is in the range 600 to 1200, and (A) comprises abamectin.

15. (New) A pest resistant plant propagation material comprising a plant propagation material treated with a pesticidally effective amount of the composition claimed in claim 14.
